## Who It Is For

---

-  Tea lovers needing portable dishwashing
-  Users requiring compact cleaning solutions
-  Office workers needing on-the-go cleaning
-  Home users with limited space
-  Gift seekers for tea enthusiasts
-  Travelers needing portable washing

## Who It Is Not For

---

-  Those needing large capacity washing
-  Users requiring high-speed drying
-  People with limited USB charging access
-  Individuals needing built-in water supply
-  Those preferring automatic drying
-  Users with space constraints for larger units

## Trade Offs to Consider

---

-  Limited capacity for large dishes
-  No built-in drying feature
-  Dependent on USB power source
-  Requires manual water refilling
-  Higher cost compared to traditional models
-  Less efficient than full-sized units

## Users Say

### ● POSITIVES

- ✓ Durable ABS material ensures long-term use
- ✓ Efficient 15-minute cleaning cycle
- ✓ Secure cup holder prevents movement

### ● COMPLAINTS

- ⚠ USB charging may be slower than wall adapters
- ⚠ Manual water refilling is inconvenient
- ⚠ Limited capacity for multiple dishes

## How It Compares

- Smaller than standard dishwashers
- More portable than countertop models
- Less efficient than full-sized units
- Requires USB charging instead of wall power
- Better for single-use cleaning tasks
- More expensive than basic hand washing

## Choose This If...

- ✓ Need compact, portable dishwashing
- ✓ Looking for USB-powered cleaning
- ✓ Want secure cup storage during washing

## Skip This If...

- × Require large capacity washing
- × Need built-in drying functionality
- × Prefer wall-powered appliances
