 **MATERIAL**
Thickened non-magnetic stainless steel frame

Who It Is For

-  Users with limited counter space
-  Campers and RV owners
-  Apartment dwellers without kitchen faucets
-  Parents needing baby bottle sanitization

Who It Is Not For

-  Users requiring 240L+ capacity
-  Those needing permanent installation
-  Individuals using only liquid dish soap
-  Commercial kitchen operations

Trade Offs to Consider

- Requires manual water filling vs. tap connection
- Limited to 30 items per cycle vs. larger loads
- No built-in detergent dispenser vs. standard models
- Stainless steel frame vs. plastic construction

How It Compares

- Portable vs. fixed installation dishwasher
- Compact design vs. full-sized units
- Manual water fill vs. direct tap connection
- Stainless steel frame vs. lightweight materials

Choose This If...

- ✓ Need portable dishwasher without permanent setup
- ✓ Washing baby bottles or children's dishes
- ✓ Limited counter space in small living areas
- ✓ Want multi-program washing options

Skip This If...

- ✗ Require 240L+ capacity for large loads
- ✗ Need automatic detergent dispensing
- ✗ Plan for permanent kitchen installation
- ✗ Use only liquid dish soap exclusively
