Energy Star certified with 240 kWh annual use

DIMENSIONS

24"D x 24.5"W x 33.74"H built-in design

NOISE LEVEL

Operates at 42 decibels

INSTALLATION

Built-in with hidden control panel

DELAY START

24-hour timer delay feature

Who It Is For

-  Kitchens with standard counter depth
-  Families with 12 place settings
-  Energy-conscious households
-  Users needing cutlery basket
-  ADA-compliant installation
-  Those prioritizing quiet operation

Who It Is Not For

-  Users requiring 14+ place settings
-  Smart home integration needs
-  High-noise environment setups
-  Commercial kitchen operations
-  Those wanting app-based controls
-  Space-constrained small kitchens

Trade Offs to Consider

-  Compact design vs. larger capacity
-  Energy efficiency vs. noise level
-  Manual controls vs. smart features
-  Stainless steel durability vs. plastic components
-  Built-in style vs. freestanding options
-  Timer delay vs. instant start

How It Compares

- Compare with 14-place setting models
- Evaluate against smart dishwashers
- Check energy ratings vs. competitors
- Assess noise levels vs. similar brands
- Compare built-in vs. portable options
- Weigh manual controls vs. app integration

Choose This If...

- ✓ Need 12 place settings with cutlery basket
- ✓ Prioritize Energy Star efficiency
- ✓ Want built-in stainless steel design
- ✓ Require 24-hour delay start
- ✓ Seek ADA-compliant installation
- ✓ Value quiet operation at 42 dB

Skip This If...

- ✗ Need larger than 12 place settings
- ✗ Want smart home integration
- ✗ Require lower noise levels
- ✗ Looking for app-based controls
- ✗ Need commercial-grade capacity
- ✗ Desire instant start without delay
