

IWIWE W10426979 24" Dishwasher Mounting Bracket Kit

QUICK BUYER GUIDE

Ideal for installing 24" dishwashers on granite or quartz countertops

At a Glance Specs

MATERIAL

22-gauge galvanised steel

FINISH

Powder coated for durability

COMPATIBILITY

Fits Whirlpool, KitchenAid, Maytag, and other brands

INSTALLATION

Under-counter mount for solid surfaces

WEIGHT

1.6 ounces for lightweight use

DIMENSIONS

19 x 0.1 x 0.1 inches for compact fit

Who It Is For

- ✓ Users installing 24" dishwashers on granite countertops
- ✓ Those needing durable mounting solutions for solid surfaces
- ✓ Homeowners with standard-sized dishwashers
- ✓ DIYers requiring pre-installed hardware

Who It Is Not For

- ✗ Owners with 18" thin-profile dishwashers
- ✗ Those with non-solid countertops like particle board
- ✗ Users needing wall-mounted installations
- ✗ People requiring adjustable bracket heights

Trade Offs to Consider

- Lightweight design vs. heavy-duty durability
- Fixed bracket angle vs. adjustable mounting options
- Pre-installed hardware vs. additional tools required
- Universal fit vs. brand-specific compatibility

How It Compares

- Universal fit for multiple brands vs. brand-specific brackets
- Pre-installed hardware vs. separate mounting kits
- Durable steel construction vs. plastic alternatives
- Compact design vs. bulkier bracket systems

Choose This If...

- ✓ Need mounting brackets for specified dishwasher brands
- ✓ Plan to install on granite or quartz countertops
- ✓ Require pre-assembled hardware for quick setup
- ✓ Prioritize durability over lightweight options

Skip This If...

- ✗ Have 18" thin-profile dishwashers
- ✗ Work with non-solid countertop materials
- ✗ Need adjustable bracket configurations
- ✗ Seek wall-mounted installation options
