Who It Is For

-  Homeowners with granite countertops
-  DIY installers avoiding drilling
-  Contractors needing no-drill solutions
-  Users with solid surface countertops

Who It Is Not For

-  Users requiring permanent screw mounts
-  Countertops with existing holes
-  Installers needing metal brackets
-  Non-solid surface countertops

Trade Offs to Consider

- Adhesive bond vs. permanent screws
- Faster install vs. traditional drilling
- Limited surface compatibility vs. universal mounts
- Lower cost vs. long-term durability

How It Compares

- No-drill adhesive vs. drill-through brackets
- Surface-specific compatibility vs. universal mounts
- Quick setup vs. traditional installation
- Temporary bond vs. permanent hardware

Choose This If...

- ✓ Need no-drill countertop installation
- ✓ Have granite or quartz countertops
- ✓ Want easy setup without tools
- ✓ Prefer temporary adhesive mounting

✗ Skip This If...

- ✗ Require permanent screw mounting
- ✗ Countertop has existing holes
- ✗ Need metal bracket compatibility
- ✗ Prefer universal surface solutions
