120 volts operation

Who It Is For

-  Large families with high dish volume
-  Energy-conscious users
-  Stainless steel interior enthusiasts
-  Users needing heated drying
-  Those requiring 14 plate capacity

Who It Is Not For

-  Small kitchens with limited space
-  Users needing ultra-quiet operation
-  Those without ENERGY STAR preference
-  Users requiring smart connectivity
-  Those needing compact design

Trade Offs to Consider

-  Larger size may require more space
-  Stainless steel may be pricier
-  Heated drying uses more energy
-  14 plates may be overkill for small households
-  ENERGY STAR certification may add cost
-  55 dB noise may be louder than some models

Users Say

● POSITIVES

- ✓ Stainless steel interior resists stains
- ✓ Heated drying reduces water spots
- ✓ 6 wash programs offer flexibility

● COMPLAINTS

- ⚠ Installation may require professional help
- ⚠ Noise level may be noticeable
- ⚠ Limited smart features

How It Compares

- Larger than standard 24" models
- Stainless steel vs. other materials
- Heated drying vs. standard drying
- 14 plates vs. fewer settings
- ENERGY STAR certified vs. non-certified
- 55 dB noise vs. quieter models

Choose This If...

- ✓ Need large capacity and energy efficiency
- ✓ Want stainless steel durability
- ✓ Require heated drying
- ✓ Need 14 plate settings

Skip This If...

- × Limited kitchen space
- × Seek ultra-quiet operation
- × Don't need ENERGY STAR
- × Prefer smart features
