POWER SOURCE

Rechargeable via USB port

DIMENSIONS

8.27 x 8.27 x 7.87 inches

WEIGHT

Lightweight at 2.68 pounds

DESIGN

Includes internal cup holder for stability

MATERIAL

Made from durable ABS plastic

PORTABILITY

Easy to carry and use in multiple settings

WATER USAGE

Uses 4 liters per wash cycle

Who It Is For

-  Tea lovers needing quick dishwashing
-  Office workers without full dishwashers
-  Students in dorms with limited space
-  Users looking for a compact cleaning solution
-  People needing a portable alternative to full-sized dishwashers
-  Those who want to wash cups and small dishes

Who It Is Not For

-  Users needing large capacity dishwashing
-  Those who require high-speed washing
-  Individuals with limited USB charging access
-  People who prefer permanent installation
-  Users needing advanced cycle options
-  Those who want a heavy-duty dishwasher

Trade Offs to Consider

-  Limited water efficiency compared to full-sized models
-  No built-in water filtration system
-  Only one cycle option available
-  Requires external power source for operation
-  Not suitable for large dishware items
-  May need frequent recharging

Users Say

● POSITIVES

- ✓ Great for cleaning tea cups quickly
- ✓ Easy to carry and use in different locations
- ✓ Stable cup holder keeps cups secure
- ✓ Simple one-button operation is user-friendly
- ✓ Looks modern and fits well in small spaces

● COMPLAINTS

- ⚠ Battery life may not last long with frequent use
- ⚠ No option to adjust water pressure or temperature
- ⚠ Not suitable for large or heavy dishes
- ⚠ USB charging can be slow for full recharging
- ⚠ Lacks a built-in filter for water reuse

How It Compares

- Smaller than standard dishwashers but more portable
- Uses less water but requires frequent recharging
- Simpler operation than advanced models
- Fewer cycle options but easier to use
- More suitable for small items than large dishes
- Better for on-the-go cleaning than stationary models

Choose This If...

- ✓ You need a portable dishwasher for small dishes
- ✓ You want to clean tea cups quickly and easily
- ✓ You have limited space for a full-sized model
- ✓ You prefer a simple one-button operation
- ✓ You need a lightweight and compact solution
- ✓ You want to use it in multiple locations

Skip This If...

- ✗ You need a large-capacity dishwasher
- ✗ You require advanced cycle options
- ✗ You prefer a permanent installation
- ✗ You need a high-speed washing solution
- ✗ You want a water-efficient model
- ✗ You have heavy or large dishware to clean
